Ireland's largest offshore wind conference

Ireland's offshore wind targets are to scale from 5 – 37 GW between 2030 – 2050. To achieve this Ireland has delivered an Offshore Wind Industrial Strategy and Future Framework Policy, focusing on long term delivery of offshore wind. 6 Projects (Phase 1), totalling 4.1 GW are now entering the planning system. Ireland's first DMAP off the South Coast is being finalised, with 4 maritime areas identified for future development. Ireland's 2nd offshore auction (ORESS 2.1) is planned for late 2024 off the South Coast, to develop a 900 MW project.

The more than 500 delegates who will attend our Offshore Wind Conference are the people deciding how we plan, connect and trade electricity from offshore wind energy. Putting your brand front and centre at this event drives home the message that when we're talking about our 'offshore revolution', we are talking about you.

What attendees say.....

- *“Superb organisation and a very engaging event”*
- *“Fantastic event incredible line up and some really great presentations!!”*
- *“Really professional seamless conference”*
- *“Hugely impressed with the smooth running of the event and also the quality of the presentations”*
- *“Attention to detail was impeccable”*
- *“Fantastic event - brilliantly delivered”*
