# WEI Annual Conference

Ireland's biggest renewable energy event

Wind Energy Ireland's Annual Conference is the most important date in the renewable energy industry's calendar. Over two days more than 500 people working in renewable energy, policy and power generation, representing Ireland's leading energy companies, will gather to plan our industry's future and to uncover new business opportunities.

It is a unique opportunity to introduce your company to Ireland's fastest growing energy industry, to the people who will shape the evolution of Ireland's power system and to place your brand at the heart of the drive for energy independence.

- Delegate eco-notepads
- Coffee-breaks

# Offshore Wind Conference

There are few countries on earth fortunate enough to have an offshore wind energy pipeline as extensive as Ireland's. We are ready for our offshore revolution with more than 28 GW of projects in development to compete for 2030 and far more on the way as we expand into Ireland's deeper waters.

Offshore wind energy is the key to a fully decarbonised Irish electricity system. It central to our energy independence and to playing our role in helping to secure Europe's energy supply.

Our small island on the edge of the continent will soon be at the centre of a complete transformation in how we power our economies and deliver a truly just transition.

The more than 500 delegates who will attend our Offshore Wind Conference are the people deciding how we plan, connect and trade electricity from offshore wind energy. Putting your brand front and centre at this event drives home the message that when we're talking about our 'offshore revolution', we are talking about you.

# Wind Energy Trade Show

New for  
2023

We are proud to announce an exciting new event for 2023 which will bring together Ireland's growing domestic supply-chain, the key players in the global wind energy industry and cutting-edge research from Ireland and internationally for the country's first Wind Energy Trade Expo.

Already a leader in onshore wind energy Ireland has the project pipeline and the determination to become a force in offshore renewables as well. The 2023 Trade Expo will showcase the exciting potential for new entrants into the Irish market and introduce to the world Irish companies that are not just competing here but are ready to compete internationally.

All this against a backdrop of two full days of seminars, workshops and recruitment opportunities.

This is set to be a landmark annual event for Europe's wind energy industry and this is your chance to be a part of it.

# Renewables in Ireland Conference

Formerly  
Autumn  
Conference

Formerly the Autumn Conference, now with a new name and an exciting agenda! What does a renewable solution to our zero carbon goals look like? What is our vision for the future of renewables in Ireland? How do we incorporate floating, hydrogen, electric heat into the solution while protecting the environment and biodiversity to replace fossil fuels to generate our electricity. The Renewables in Ireland Conference provides us with a platform to explore all this and more. Sponsorship of this event puts your brand in the driving seat to discuss how we make this vision a reality.

Delegate bags  
€2,500

### Branding opportunities

- Delegate eco pens
- Delegate eco notepads
- Coffee breaks

# Corporate Golf Day

Taking place in **the K-Club on Friday 9<sup>th</sup> June**. There are two packages available to ensure a full day of networking! Take one or both packages.

## THE PALMER SOUTH COURSE AT THE K CLUB

The best way to describe the Arnold Palmer designed Palmer South Course at The K Club is that of an inland links course. However, its true attributes do not stop there. The course has many dramatic landscapes with dune style mounding throughout the Kildare Golf Resort. This assists in making the course into a true Championship Golf Course with many vantage points for spectators to view golf professionals at work.
